31 White – Size 6/0 beads

- 1) String the button to the center of the leather and secure with an overhand knot. Set aside two beads of each color for the fringe.
- 2) Using a chain nose and flat nose plier, close all the jump rings.
- 3) String one blue bead on one strand of leather.
- 4) String one closed jump ring on both strands of leather.
- 5) String one white bead on the opposite strand of leather.
- 6) String one closed jump ring on both strands of leather.
- 7) Repeat steps 3, 4, 5, & 6 four times. (You now have strung five blue and five white.)
- 8) String one red bead on the same strand as the blue bead.
- 9) String one closed jump ring on both strands of leather.
- 10) String one white bead on the opposite strand of leather.
- 11) String one closed jump ring on both strands of leather.
- 12) Repeat steps 8, 9, 10 & 11 nineteen times ending on a white bead and then a ring. (Total of 20 red beads.) If you need a longer or shorter bracelet adjust in the red and white area by subtracting or adding red and white sections. (One inch = approximately 10 beads.)
- 13) String one blue bead on one strand of leather. (On the strand with the red beads.)
- 14) String one closed jump ring on both strands of leather.
- 15) String one white bead on the opposite strand of leather.
- 16) String one closed jump ring on both strands of leather.
- 17) Repeat steps 13, 14, 15, & 16 four times, ending on the blue bead. (You now have strung five blue and four white.)
- 18) Create a button hole by tying two overhand knots.
- 19) Adorn the ends with the beads to create fringe and knot each into place.
- 20) Trim off the extra leather.
